PROJECTS

TrackWise - Smart Expense Tracker | 🐙 Github 🌐 Website

Feb 2026 - Apr 2026

- Architected and deployed a responsive MERN stack finance tracker featuring secure email/password authentication and seamless Google OAuth integration.
- Integrated the browser-native Web Speech API to enable hands-free, voice-to-text transaction logging.
- Engineered a backend scheduling system using `node-cron` to automatically process and log recurring daily, weekly, and monthly expenses.
- Optimized dashboard performance by writing complex Mongoose aggregation pipelines to calculate category-wise budgets and 12-month trends server-side, eliminating heavy client-side computations.
